GENERAL PRICE LIST OF GRADED NURSERY STOCK

GROWN AND FOR SALE BY THE

F. & F. NURSERIES

Springfield, Union Co., N. J.

LOCATION: 17 miles from New York. Take Morris County Trolley from Elizabeth, Milburn or Summit (directly passing our office). Rahway Valley R. R. connecting with the C. R. R. of N. J. and Lehigh Val. R. R. ($\frac{1}{2}$ mile from station to our office). D. L. & W. R. R. to Milburn Station (1 mile from our office) connected by Trolley.

LOCAL AND LONG DISTANCE TELEPHONE, MILBURN.

TO OUR CUSTOMERS.

PRICES—Quoted are for best commercial grade and quality. TREES SELECTED BY CUSTOMERS AT THE NURSERY WILL BE CHARGED FOR IN ACCORDANCE TO THEIR VALUE. We quote by height but it must be remembered that the height does not always indicate the value of a tree or plant—a very short and compact specimen is more valuable than a slim, straggly one of the same height. Customers can rely upon our selecting full value for the prices charged. We are firm believers in the graded stock system not generally in use in the nursery business. We grade according to caliper and height.

DELIVERY—At prices herein quoted we will deliver free to near-by customers with our own wagons. Distant orders will be safely and securely packed in boxes or bales and delivered F. O. B. cars here, freight or express charges to be paid for by the purchaser.

TERMS—Customers with whom we have had no dealings heretofore should remit with order, or send satisfactory references. Old and known customers can, if they wish, remit on receipt of goods. All accounts are due, NET CASH, as soon as goods are received. Remit by Check, Draft, Express or Money Order, one and two-cent postage stamps accepted for small amounts.

EARLY ORDERS—Customers should send in their orders as early as possible so we can place them on our digging list. Our work in the digging season is necessarily very much crowded owing to our dependence on the weather conditions, and we can only in exceptional instances fill orders in other than regular turn.

DIGGING SEASON—Usually commences end of September in the fall continuing so long as ground holds open. In the spring from the middle of March until middle of May.

GUARANTEE—We guarantee all our stock true to name and in good condition on leaving our hands, but do not guarantee it to live and grow under all conditions, nor do we make up any loss whatever, due to climate effects, or after culture on the part of the purchaser. In case any mistake should happen in the naming of a plant we will replace it with the true variety as ordered, but we are not liable to more than its original invoice value in refunding money.

QUANTITY—One dozen trees or plants of a kind supplied at ten times the single rate. When 100 or more are required of any one sort special rates will be given.

DESCRIPTIVE CATALOGUE FREE.

FRUIT DEPARTMENT.

Hundred rates on application.
